Key Objectives

- ❖ The physics and application of Cone Beam Computer Tomography
- ❖ CBCT in implant dentistry
- ❖ CBCT in TMJ evaluation
- ❖ CBCT in endodontics and periodontology
- ❖ CBCT and wisdom teeth extraction
- ❖ Radiological interpretation of different conditions involving the Oral and Maxillofacial area
- ❖ Radiobiology
- ❖ Early and late changes of the mouth after radiation and chemotherapy

About the Speaker

Dr Katya Archambault is a Board CERTIFIED Oral and Maxillofacial Radiologist from UCLA. She also received a Certificate in Implant Dentistry from NYU after studying for two years from 2007 to 2009. She got her dental degree from Laval University and did a Certificate in Microbiology at that same university. She also got extensive TMJ training in Austria at Danau University. She owns a private practice in Beverly Hills and the San Diego Dental Health Center in La Jolla, CA. She also has an appointment in UCSD as a clinical instructor within the Department of Surgery, Division of Otolaryngology. Her clinical interests are in Pathophysiology and Radiologic interpretation of the Maxillofacial Complex, Maxillofacial Radiology, Sleep Apnea and Airway Evaluation, TMJ, Soft and Hard tissue reconstructive Surgery, implantology and navigation procedures. She is an international lecturer, published into journals and received several awards over the years. Dr Archambault is also a member of the American Academy of Oral and Maxillofacial Radiology, Academy of Osteointegration and International Congress of Oral Implantology.
